

**ID:** 51010**Title:** Wild West Bank

Brief Desc.: A loose adoption of the arcade classic 'Bank Panic': It's tough being a bank clerk in the Wild West! Keep your eyes on all entrances: All customers are welcome- with robbers you make short work of!

Full Desc.: The wild, wild West. Honest people take their money to the bank, others collect it from there- with their pistol! You as a fearless clerk are in complete control!
The bank has six entrances, three of which you always have in your sight. You can switch between the left and right doors. When a customer arrives, the door opens - as quickly as possible you must decide if he is a customer or a robber - robbers find no mercy. Sometimes a bonus-guy gives you the opportunity for 500 points, if you hit all melons off his head!
